3. Create a new site with the following configuration

- Site Name: Good to use a meaningful name like "Linkage Honest Broker"
- Protocol: SFTP SSH File Transfer Protocol
- Host: <u>lhbsftp.regenstrief.org</u>
- Port: 2222 (*Important*, this deviates from the standard ssh port 22)
- Login Type: Key File
 - Used to identify the Private key you have generated
- User: Username provided by Regenstrief
- Key file: Browse to the location and filename of the Private key you have generated

4. You can now connect to your LHB data inbox

Should you have any connection problems you may contact the LHB at the N3C service desk https://n3c-help.atlassian.net/servicedesk/customer/portal/2

You can submit a ticket by choosing N3C Record Linkage, then select "Linkage Honest Broker" for the PPRL Question Category
